Wireless Touchpad Keyboard

E2800P

The E2800P is a stylish, space-saving, and rugged touchpad keyboard. The ultra-slim design is really trendy and, combined with the high-grade casing made from a special aluminum alloy, it's a real eye-catcher. Despite its compact size, this keyboard offers full-size keys which make typing much more comfortable, especially with longer texts. And thanks to its glass surface, the touchpad is scratch resistant and easy to clean.

▸ Reliable 5 GHz wireless connection

Wireless and interference-free: The 5 GHz standard developed by Rapoo avoids interference from other wireless devices. What's more, it offers you a range of up to 10 m and 360° coverage – and all while consuming very little power.

▸ Full-size keys

Zero compromises: Despite its compact size, this keyboard offers the typing comfort of a full-size keyboard. The generous spacing of the chiclet keys offer a pleasant and smooth typing experience, especially when it comes to longer texts.

▸ Smart Touch Area with 15 gestures

Touchpad included: The generously sized and scratch-resistant touchpad offers easy and convenient navigation without the need for a mouse. With up to 15 configurable gestures, navigation is made smoother and more natural.

▸ Tough aluminum alloy body

Find your style: The stylish design is available in white, red, green, blue or black. The ultra-slim design and sturdy build quality make the E2800P a real eye-catcher, whether used with your laptop or your tablet.
